#### Project Management Prep Course 5 Days

If you are intending to pursue a Project Management Professional (PMP®) certification, then this course is for you. This is a MUST DO for all Project Managers or those who want to get involved in the profession of project management.

The course is designed to review and emphasize the project processes and knowledge areas, terms, tools, and formulas required for taking and passing the PMP® certification examination. The entire course content is compliant with the "Guide to the Project Management Body of Knowledge, 5th edition, (PMBOK®) from the Project Management Institute (PMI®)

This course will feature:

- Complete review and study of the 5 process areas, 10 knowledge areas and the 47 process steps, including the inputs, tools and techniques and outputs of each.
- Review and hands on practice with sample test questions, problems and practical exercises supporting project scheduling, earned value management and expected monetary value
- Review and use of different project management mathematical formulas for estimating, critical path analysis, earned value management, expected monetary value and probability and impact.
